July 11, 1961

Dear Baron Von Braun,

When I got out of Ypsi I was forced to return to my job at Michigan State Employment Service because my clothes had been confiscated, along with all my other personal possessions, and I was penniless, as I am now.

They chucked me off the job, before you got to Lansing, and each time you're due in the area of my flight they send Government Agents on my trail, to re-commit me via a new snatch, so I'll have to keep running, like a Fox to Hounds.

I have a Tourist permit to Mexico, where I have friends, but no money to get there although I'm only three hours away by train. This was as far as my money lasted, and they are holding up my bit of

Retirement money, the better to corner me in this country.

Contrary to what you may have been told, they have no intention of letting me live. It's buried within army and the Presidency, while their psychiatry teams attempt to give my mind to that French paramour of the Morroccan King. Elsewhere, they're using other persons in the identities of my family, my non-existent children, and me, for cash, for U.S. military bases, and for a phony fight against communism.

To get it done, they've turned me over to the Jews and Negroes, and barred anyone from helping me. Indeed, I can't even obtain medical attention at the most reputable hospitals and medical centers, on pain of being "put away." I know, because I tried it at Barnes Hospital in

(3)

St. Louis, where I used to go as a girl, after our German family Doctor returned to the Fatherland.

They've got Spain in a trap of U.S. bases, threatening from Morrocco, while threatening punitive actions against Mexico, and occupying Germany. They holler Communism, while all my help and protection comes from Russia, excepting a team of inner Gov't personnel, with Military and Civilian status who are loyal to me, and keep me informed.

Indeed, Mr. J. Edgar Hoover, the real one, left ex-F.B.I. agents strategically located to cover all the important people involved in this giant scheme to deprive me of my birthright, my inheritance, and my life. I know who they are and where they are, and they know me

personally. One is even assigned to Suite [illegible]. They are not answerable to the U.S. Government, just to me.

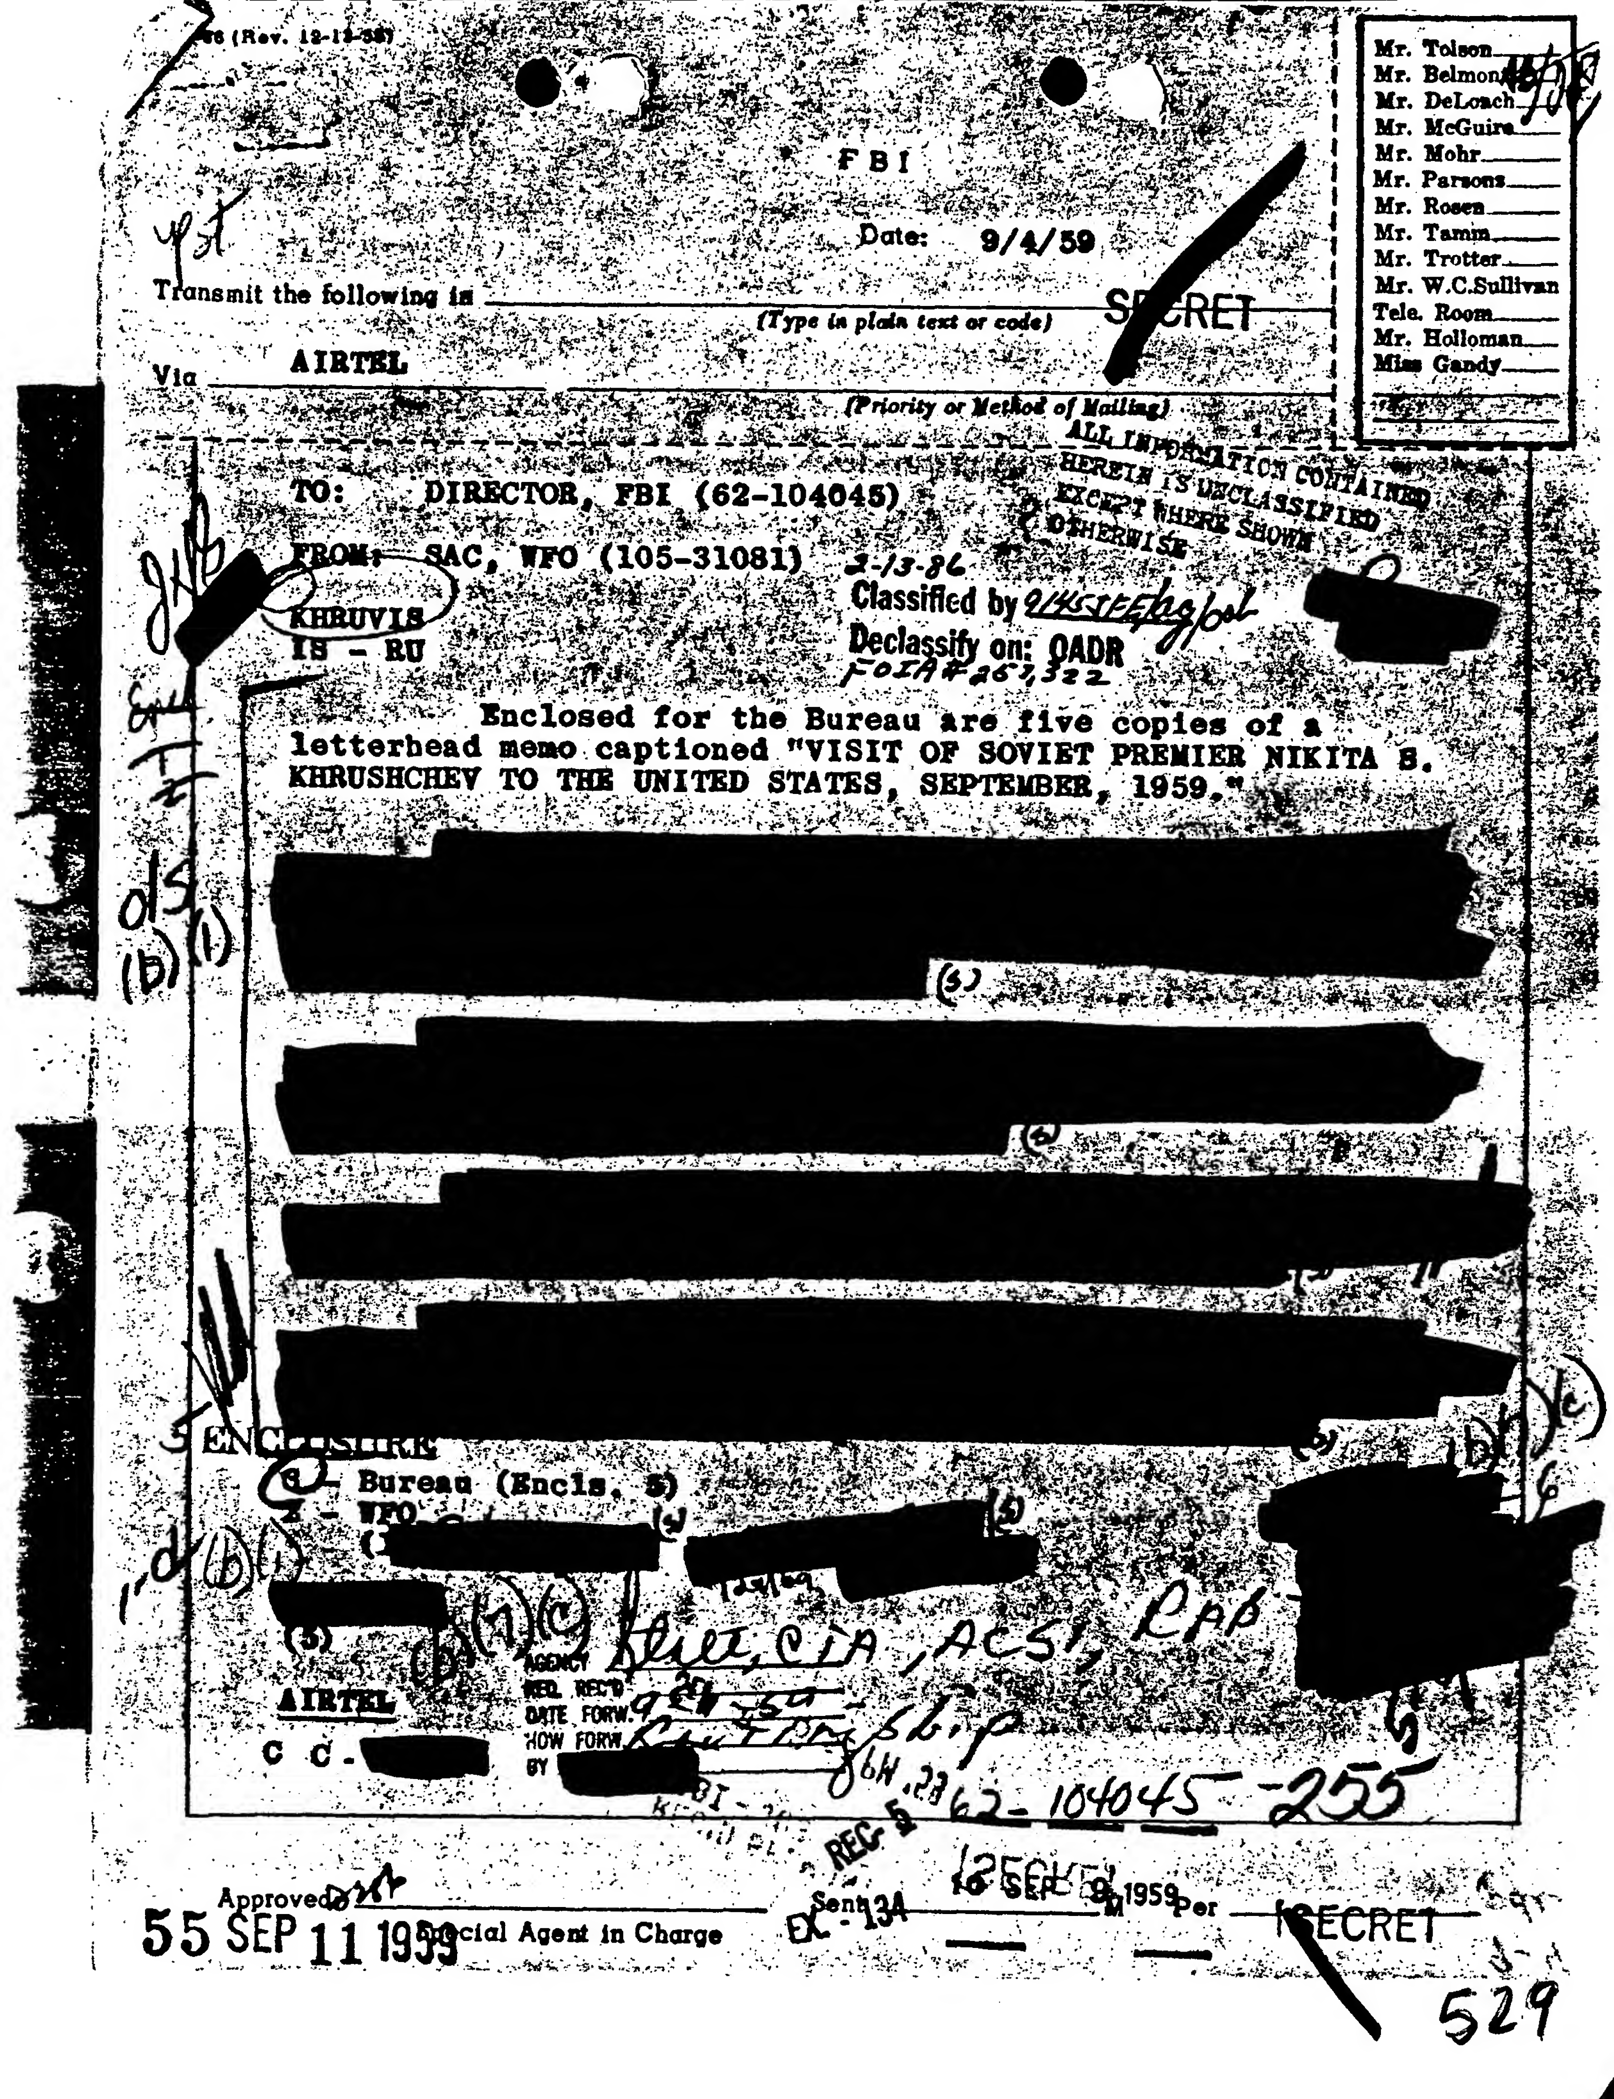

I have knowledge and proof of everything, including self identity papers. Gov. Patterson of Alabama and Gov. Ross Barnett of Mississippi will verify and assist me, if you wish it.

Is there any way you can get me across the border, via the military you know we can trust? Preferably someone like Lt. Gen. Bernard Schriever, whom I know will protect me. I also have a crew in G-2 and Navy. I keep them secret, less harm come to them and me.

I have to leave the Y.W.C.A. tomorrow, according to their transient rules, but mail and messages will be received for me. The matter of my safety is urgent.

Faithfully Yours

### A PECULIAR "FREEDOM"

You often write in your newspaper about the difficulties we experience in foreign lands, but it still seems to me that even for you, who are well acquainted with conditions of our life, it is difficult sometimes to imagine what deprivations and difficulties we have to encounter here.

Recently, our daughter NADYA, who has just had her sixth birthday, became gravely ill. Her condition was so serious that we had to take her to a hospital immediately.

I earn 10 dollars for eight hours' work. We are modest people; we are not used to luxury; we are not afraid of any kind of work; and we believed that these 10 dollars a day, together with the money earned by my wife

A TESTIMONY OF WERNER VON BRAUN IN A US CONGRESSIONAL COMMITTEE

D. MAYER (phon.), a correspondent of the United Press International Agency reports from Washington:

"Dr. WERNER VON BRAUN, a rocket specialist, in speaking in the House Committee on Space Problems, stated that he 'would not be surprised' if this year the Russians would place a man in orbit around the earth.

"VON BRAUN, who was born in Germany, stated that Russia is several years ahead in the field of space research. VON BRAUN 'doubts very much' that the United States could overtake it by 1964, even taking into consideration new funds allotted for a big space rocket 'Saturn'."

Referring to American specialists, the correspondent expresses a surmise that "in a flight to Mars, Russia, possibly, will get ahead of America by two years."

The correspondent quotes a statement by VON BRAUN to the effect that even if the Congress would allot "additional millions" of dollars for work in the field of creation of rockets, these sums "would be, very likely, spent to no purpose."

VON BRAUN, writes the correspondent, stated that "the Russians, undoubtedly , will also make advances in cosmic research" during the period when the work on the rocket "Saturn" will be under way, to be completed by 1964. "It is possible, that they even now are creating a rocket exceeding in size everything which they tested so far."

"Even with the existence of such an accelerated program, " he said, "it is very doubtful, that we would be ahead by 1964."
